

IB 7/40 Adv

The Ice Blaster IB 7/40 Advanced has a jet gun with integrated remote control and also guarantees the best results with dry ice cleaning at low air pressures.

1 Clear display

- Easy to read off the values set; ease of operation thanks to large buttons and electronic control system.

2 Automatic residual ice discharge

- The ability to empty the residual ice tank at the touch of a button prevents the device from icing up once work is complete.

3 Outstanding mobility

- Optimum balancing of the device for convenient manoeuvring on uneven terrain.
- Bars at the front and rear of the device make it easy to negotiate stairs.

4 GFRP dry ice container

- Optimum insulation of the dry ice.
- No condensation.

IB 7/40 Adv

- Operation by the trigger gun
- Oil and water separator
- For in-house compressed air networks
